

Writing Your Life

A writing course in seven sessions with
Debra Gordon Zaslow

Learn to transform your memories into narrative that resonates with truth and style. In this seven week course we'll use guided visualization to evoke images of the past, then free-write with inspirational prompts. We will also focus on the craft of memoir writing, including developing characters, using sensory imagery, creating metaphor to extend meaning, and discovering a unique voice as the narrator of your life's journey.
